Professional Experience

Mern Stack Developer (Internship)

Lahore, Pakistan

At ZNZTechnologies Collaborating with the **frontend team** on our product development. we aim to research and implement Meta ad campaigns with **HTML, JavaScript, CSS, and the Bootstrap framework**

Full Stack Developer (MERN Bootcamp)

07/2024 – 10/2024

Lahore, Pakistan

Completed a 3-month intensive **MERN Bootcamp** under FragGame through **NAVTC**, focusing on building robust web applications. Developed an e-commerce project utilizing **React.js, Node.js, and MongoDB**, demonstrating proficiency in creating responsive user interfaces and managing back-end server functionalities. Gained hands-on experience with **RESTful APIs, Express.js**, and version control using **GitHub**. Additionally, created a personal portfolio showcasing my projects and skills, including implementing best practices in software development and deployment.

Freelancing

I've completed numerous projects on platforms like Fiverr And upwork specializing in Web development.
